PROFESSIONAL SUMMARY

Customer-facing Cloud Solution Architect with 8+ years on-premises IT experience and 3+ years designing secure hybrid and multi-cloud architecture. Proven success driving security-first cloud adoption through architecture design, executive briefings, and hands-on implementation. Strong background supporting regulated healthcare environments, aligning cloud security solutions with business, compliance, and operational goals.

I specialize in private-cloud, multi-cloud, and hybrid-cloud solutions. Proficient at collaborating with stakeholders, vendors, and engineering teams to deliver Secure-by-Design cloud solutions that improve security posture, reduce risk, and accelerate cloud adoption.

CORE COMPETENCIES

- Cloud Solution Architecture
- Microsoft Azure Architecture
- Zero Trust Security Model
- Identity & Access Management (Azure Active Directory / Entra ID)
- Conditional Access & Identity Protection
- Microsoft Defender for Cloud / M365 Defender (conceptual & evaluative)
- Secure Hybrid & Multi-Cloud Design
- Disaster Recovery & Business Continuity
- Secure Network Architecture & DMZ Design
- Customer-Facing Technical Leadership
- Architectural Design Sessions (ADS)

- Microsoft Sentinel (SIEM/SOAR concepts)
 - Executive & C-Level Presentations
 - RFP / RFI / RFQ Technical Responses
 - Healthcare & Regulated Industry IT
-

PROFESSIONAL EXPERIENCE

Go Cloud Careers

Cloud Solutions Architect Associate

November 2022 – Present

- Design secure private, hybrid, and multi-cloud architectures, aligning solutions with TOGAF framework.
 - Lead architectural design sessions to define security strategy, cloud architecture, and implementation roadmaps aligned to business and compliance requirements.
 - Design high-availability and disaster recovery solutions to ensure operational resilience and secure cloud adoption.
 - Architect secure DMZs and network segmentation to support remote access and web-facing applications.
 - Participate in RFP, RFI, and RFQ responses, translating security and cloud requirements into scalable technical solutions.
 - Deliver executive briefings, customer presentations, and solution walk-throughs, clearly articulating business value and risk reduction.
-

Memorial Healthcare System

Information Technology Analyst

May 2022 – Present | Fort Lauderdale, FL

- Support enterprise IT operations within a highly regulated healthcare environment, emphasizing security, availability, and compliance.
- Troubleshoot and resolve complex infrastructure related issues across clinical and corporate systems.

- Collaborate with cross-functional IT teams to improve operational health, system reliability, and uptime posture.
 - Provide technical guidance aligned with best practices.
-

Baptist Health South Florida

Senior IT Technical Analyst

August 2019 – May 2022

- Delivered advanced technical support for enterprise systems in a mission-critical healthcare environment.
- Acted as an escalation point for complex technical-related incidents.
- Successfully completed complex projects to enhance patient experience.

Lead Biomedical Equipment Technician

December 2005 – August 2019

- Led technical operations supporting clinical systems and medical devices across healthcare systems.
 - Ensured system reliability, uptime, and compliance with healthcare regulations.
 - Developed strong stakeholder communication skills working with clinicians, executive leadership, and vendors.
-

EDUCATION

Bachelor of Applied Science (BAS) – Information Technology Cybersecurity

Broward College

Associate degree – Biomedical Technology

Miami Dade College

CERTIFICATIONS & SECURITY TRAINING

- Advanced Certification: Cybersecurity & Ethical Hacking
- ComTIA Security+

- Ongoing professional development in Cloud Security & Azure Certifications
-

ADDITIONAL QUALIFICATIONS

- Bilingual: English & Spanish
- Authorized to work in the United States (no sponsorship required)
- Comfortable with remote work and travel
- Growth mindset aligned with Microsoft & AWS culture and values
